Cisco Recertifies Leverage in Four Advanced Specializations

Woodinville, Wash., Aug. 30 – Leverage Information Systems, doing business as Federal Network Services and Communication Specialists, today announced Cisco Systems® has recognized the company for achieving recertification in four advanced specializations. Recertification means Leverage has met demanding Cisco standards in designing, installing, and supporting comprehensive, integrated network solutions.

Leverage (www.leverageis.com) achieved Cisco Systems advanced specialization designations for Advanced Wireless LAN, Security, Unified Communications, and the Advanced Technology Partner (ATP) program's Optical Metro Transport and Rich Media Communications.

“Recertification in these advanced specialization designations reflects Leverages’ level of expertise and our commitment to meeting the networking needs of our government, health care, education, hospitality, and commercial customers,” said Doug Chesler, president and CEO.

In earning recertification Leverage met demanding Cisco partner program requirements, including rigorous training and demonstrating the company’s expertise in advanced technology program-specific technology and products. Now enterprise-scale organizations as well as small and medium-sized business can benefit from Leverages’ proven routing, switching, security and communications solutions for unparalleled services performance, investment protection and end user productivity.

As a Cisco Channel Program partner Leverage Information Systems offers a full complement of pre-sales and post sales support services, including installation, onsite hardware repair and upgrades, broad troubleshooting expertise, Cisco products sales, configuration and upgrade support. Leverage Information Systems also offers a wide array of IP communications, networking and information security solutions to meet the current and future networking needs of customers.

“Recertification in these advanced specializations designations reflects Leverages’ level of expertise....” – Doug Chesler, President and CEO
